

FROM THE DESK OF THE MD'S OFFICE

Dear Team,

As we begin this financial year, I'm encouraged by the momentum we have already started to build. The market outlook is improving, customer confidence is rising, and our own internal progress shows we are moving in the right direction. It's clear, we are stepping into a positive phase with strong potential.

However, turning potential into performance will depend on one crucial factor: **ownership**.

This year, more than ever, each of us has a role not just in executing tasks, but in thinking and acting like true custodians of our collective goal. When we take ownership, not just of our responsibilities, but of outcomes, challenges, and opportunities, we shift from "doing our jobs" to "driving our future."

Achieving our goal for this year is not just the leadership's ambition; it is a shared mission. Every individual, whether in sales, engineering, production, service, or support, plays a critical part in achieving this milestone. It is important that each one of us sees the bigger picture, understands how our actions contribute to it, and feels a sense of personal responsibility toward making it happen. When decisions are taken with intent, actions are followed through with accountability, and challenges are met with a problem-solving mindset, we are already halfway there.

I truly believe in the talent, dedication, and strength of our team. Let's move ahead with a clear purpose, take initiative where needed, and remember that the efforts we make today will define Repute's future. Let's stay open in our communication, work closely with each other, and stay committed to our common goal. The journey may have its challenges, but with teamwork and determination, I'm confident we will achieve success together.

With Regards,

Dinesh C. Nambiar

LEADERSHIP CORNER

As World Environment Day approaches on 5th June, it's a great time for all of us to think about how we can contribute to a greener planet. As a manufacturing company, we are already doing our part by designing energy-efficient equipment, using eco-friendly materials, and following sustainable practices in everything we do. But we all have a role to play in making the world a better place. Each of us can help by being mindful of our actions at work. Simple things like reducing waste, saving energy, using resources wisely, not wasting water, reusing and recycling materials, and minimizing printing can make a big difference. Let's come together as a team and continue to make a positive impact, not just on World Environment Day, but every day. Together, we can help create a more sustainable future for everyone.

DO YOU KNOW

Why is UHT (Ultra-High Temperature) milk safe to store without refrigeration before opening?

Answer: UHT milk is heated to a temperature of about 135–150°C for 2–5 seconds, which kills almost all microorganisms and spores. It is then packed in aseptic, airtight containers, preventing contamination. That's why it can stay fresh for 6–9 months without refrigeration — until the seal is broken.

TECH-SPOTLIGHT

Advanced Homogenizers: Global Technology for Superior Processing

We offer advanced homogenizers featuring Bentoli technology, delivering smooth textures and enhanced flavours across dairy beverage, and prepared food applications.

Designed to reduce particle size with precision, these systems ensure consistent product quality while boosting efficiency and energy savings. From creamy milk and rich yogurts to uniform juices and sauces, our homogenizers are built for reliable, high-performance processing.

Partner with Repute Engineers to bring global technology to your production line and meet today's quality-driven market demands.

FUN CORNER

I'm not cooked, yet I transform. From liquid state to a solid form. I grow with warmth, but I'm not a seed. Rich in culture, I meet your need. What am I?

CELEBRATING OVER A DECADE OF DEDICATION

We are proud to honour our employees who have completed ten years or more of dedicated service.

Mrs. Veena Subbannavar has completed **13 years** of service. Mrs. Veena is currently working as **General Manager (Engineering)**.

Mrs. Kunjamma Anjyan has completed **17 years** with REPUTE. Mrs. Kunjamma is working as **Executive (Purchase)**.

We congratulate them on this milestone and thank them for their commitment and contributions to our success.

CELEBRATING WORLD MILK DAY - HONOURING THE JOURNEY OF MILK

Milk is more than just a drink, it's a symbol of health, purity and strength.

Observed globally on 1st June, World Milk Day celebrates the importance of milk in our lives and the incredible journey it takes from the farm to your table.

At Repute, we are proud to empower the dairy industry with advanced processing plants and equipment that ensure milk is safe, nutritious, and of the highest quality.

We salute the hard work of farmers, the precision of technology, and the commitment of everyone in the dairy supply chain.

Today, we renew our commitment to delivering reliable and efficient solutions that support the growth of dairy processing, helping our partners serve better, every day.
